CUSTOMER DATA _____

Company*

Contact person/Department

Address

Contact Number

Email

Required Technical Basic Data _____

Medium description

Concentration

 %

Specific weight

 kg/dm³

Operating temperature:

Operating temperature:

min (°C) max (°C)

Viscosity at operating temperature:

Does the liquid contain solids?

Yes

NO

If so, please provide as precise information as possible

(solid content, grain size, hardness, jagged or smooth edges, abrasiveness).

Does the transported liquid tend to crystalize? Yes, at

°C

NO

Operational data _____

Nominal flow rate

 m³/h

Total head, i.e suction and pressure head including pipeline losses column.

 m Ws of water

Suction head: m Ws of water column

Nature of operation _____

Daily operation: h/day

Turn-on frequency: per day

Electric motor

Voltage: V

1-phase

3-phase

Frequency: Hz

Protection class (Standard IP 54)

Insulation class F

If you are unable to answer questions any of the questions above,

Please provide a complete sketch of the installation

complete with all the data necessary for the layout of the pump.
